PROJECTS

X-ITOS   GitHub

Mobile Application Project, 2024

- An integrated escape room system with a tablet check-in app and a social mobile app, built using React Native, Nest.js, PostgreSQL, and Docker.

NordFlix Movie App   GitHub

Advanced Web Application Project, 2024

- A full-stack app for browsing movies and TV shows, allowing users to review both movies and TV shows, save favorites, and share them.

Tastopia Recipe Sharing App   GitHub

Web Programming Project, 2023

- A recipe sharing platform allowing users to share, search, and rate recipes.

Duunitori Job Scraper   GitHub

Personal Project, 2024

- Mimicked API-like data extraction by scraping and parsing job data from Duunitori's HTML using Puppeteer, with automation via Task Scheduler.
